

Medior Software Developer

IcodeFactory is the company that completes the entire software development process from idea to production. We are currently looking for highly motivated, curious and talented Medior Software Engineers to join our development team in Novi Sad.

Can you solve most well-defined tasks independently? Are you a team player who is ready for new challenges? If you are all that and much more, we have a position for you.

Requirements:

- University degree in computer science or equivalent technical studies
- Good knowledge of .NET Framework
- Have built web, desktop or cloud solutions on Microsoft platform
- Good written and spoken English
- Smart and gets things done

Expectations:

- Developing software solutions based on .NET Framework
- Performing qualitative coding with passion for great software design and good code quality
- Keeping up to date with the latest technology trends

What we offer:

- Full-time job (40 hours weekly) with competitive salary package
- A dynamic international working environment and great career opportunities
- Opportunity to work in a team of professional people and take part in challenging, cutting-edge projects for some of the biggest companies in the world
- Opportunity for personal development with professional training, education and certifications
- Business trips to clients in Western Europe
- Fruits, refreshments, free sports activities, free parking space and more
- Positive working atmosphere in our cosy and modern office at a very good location in Novi Sad

How to apply:
